**Indian students among the top to get the UK visas amidst Covid-19 Pandemic**

*Corona pandemic has had an adverse impact on the immigration situation for every country wherein a huge drop was observed for students moving abroad for higher studies; surprisingly, the number of Indian students to gain student visa in the UK has increased exponentially. The number continued to drop for countries like China, US, Hong Kong and others but a sharp rise was observed for only Indian students as compared to the last year.*

**STUDENTS SPEAK**

**Aman Sharma**

Fateh education has really helped me to secure a place in my dream university. Their way of working was very professional and easy as well. They helped from the documentation process to the final visa process. I would specially like to mention my counselor Luckshita who was very friendly and helpful throughout whole the process. I would like to thank Fateh Education for helping me achieve my goal and also for all the students they'll be helping in the future.

**Avinash Singh**

I was referred to Fateh Education by one of my old friends stating that this is the best institute across India for IELTS examination preparation, and this has proved absolutely correct. Jayati Mam's words were – "Follow my guidance blindly and you will get your desired score", which is exactly what I did and achieved what I aimed for. Her vast experience and tremendous knowledge around IELTS is unparalleled and will surely continue to shape future of people going forward.

**Congratulations to our IELTS Performers!**
